

CIVIL CONSTRUCTION  
CONTRACTORS

P2K is passionate about building the infrastructure communities need to grow and flourish. Our **civil infrastructure expertise** spans from walkways and roads to highly technical runway repairs. P2K has the expertise, capacity, and financial backing to not only manage projects, but to also execute nearly every construction facet in-house. Our thorough approach ensures consistent, reliable service with an end result we can stand behind 100%.

We are engineers, and problem-solving is in our DNA. No matter how well-planned or scoped a project may be, unforeseen issues inevitably arise, and when they do, we respond with the speed and agility that only come with skill and experience. We are proactive, consultative, and nimble, allowing us to deliver excellence on time and on budget.

## VISION

## MISSION

As engineers, we are analytical and investigative, and we are continually striving to push toward better processes and results. **P2K innovates and improves the way construction is executed** through technology, proprietary construction techniques, and advanced project management strategies. We are committed to excellence, delivering the best results with the best customer experience.

We strive to be the leading civil infrastructure construction company, known for innovation, reliability, and excellence.

P2K builds the infrastructure communities need to grow and flourish, providing construction services in public spaces and planned developments, as well as performing highly technical operations at locations like airports and military bases. We are committed to excellence in service and take pride in delivering exceptional outcomes for our clients.
